

## Topic: Heroku Deployment

*Speaker: Personal / Notebook: Deployment*

---

1. Check this article for [DEPLOYING DJANGO ON HEROKU](#)
2. To understand the nature of static files on Heroku, [read this](#).
3. To read how to use ENVIRONMENT VARIABLES on HEROKU, read this. See their [sample SETTINGS.PY](#)
4. If your project is using Postgres Database, see this [documentation here](#).
