**Topic: Heroku Deployment** 

Speaker: Personal | Notebook: Deployment

- 1. Check this article for <u>DEPLOYING DJANGO ON HEROKU</u>
- 2. To understand the nature of static files on Heroku, read this.
- 3. To read how to use ENVIRONMENT VARIABLES on HEROKU, read this. See their sample SETTINGS.PY
- 4. If your project is using Postgres Database, see this <u>documentation here.</u>
